Interactive Touch Whiteboard

Dual OS

Experience the most versatile commercial Touch Screen on the market. With both Android and Windows operating systems installed on the integrated PC it cannot be beaten on flexibility Seamlessly switch from your Windows desktop to the Android apps; this screen has it all in one convenient package. A windows license will need to be purchased separately.

Infrared Touch

Infrared Touch Screens use the most robust and durable touch technology available. Designed for commercial use, infrared touch technology works by embedding LED lights and sensors into the bezel of a monitor above the glass. These LED's beam a signal across to the corresponding sensor on the other side forming an invisible grid. When the grid is broken by a finger, or other solid object, the sensors can detect the touch point. Infrared Touch Screens are by far the most cost effective solution on the market.

Camera and 4 arrays microphone

A High-performance camera for the meeting can clearly see every corner; With 4 arrays microphones, 180°omnidirectional voice acquisition, bring you a more perfect meeting experience.

Commercial Grade

Designed for use in commercial applications this screen can run 24/7. There are no external buttons or controls to avoid tampering.

IPS Panel

Superior image quality and colour depth at 178° ultra wide viewing angle in both landscape and portrait orientations.

Optional OS

The screen could have both windows and android operating systems on it.

Portrait / Landscape Orientation

The screen can be used in either a landscape or portrait orientation depending on your requirement.

10 point fast IR touch screen

Using the most responsive and sensitive commercial touch technology available. Not affected by dust or debris on the screen surface.

Integrated Dual OS

24/7Usage

Integrates Wi-Fi

IPS panel Technology

LED Backlight

Touch Screen Upgrade

Landscape or Portrait Orientation

Product Advantages

Specialized for corporate training, office conferences, business presentations.

Product Advantages

Windows & Android inside

Could change the OS within 1 second via touch button

Brush Finish Surface

Aluminium frame with brush finish treatment

Interactive

10 touch points for the IR touch screen, would upgrade to 32 touch points Max.

Multiple Connectors

Multiple signal input connectos, enough option for the signal input.

Front connectors

Front connectors very convenience for the user to get contact their own device like laptop and tablet.

Free Presentation Software

Integerated a great presentation software inside, which whiteboard, screen share functions all for free!

Specifications

Model			No.421
